FYI:

Good morning!

My name is Glen Zollman and I support districts in Maine who use BrightBytes Technology & Learning module (T&L) through the MLTI program.

I'm reaching out today because we've recently completed an analysis of the T&L data districts have collected over the past 6 years and have found that Lincolnville Central School stands out as one of the top 20 districts in Maine when it comes to how technology is impacting the classroom. I know how hard the job of transforming the classroom is and just wanted to say "Congratulations on a job well done!"

I'd love to schedule 30 minutes to talk and capture the story of what you've done to accomplish this. Sharing your story can really help other districts push through some of the challenges they are facing as they work to create 21st century classrooms for their students.

Please feel free to use this link to find time on my calendar for us to chat: [https://meetme.so/BrightBytes\\_Zollman](https://meetme.so/BrightBytes_Zollman)

Thank you for your time. Have a great day!
