

SCHOOL COMMITTEE MEMBER DEVELOPMENT OPPORTUNITIES

Recognizing the value of continuous and life-long learning, the School Union 69 School Committee's place a high priority on the development of its members' "boardsmanship" skills and on supporting opportunities for in-service education. The purpose of School Committee development is to enhance the quality of education in the school unit and the effectiveness of school unit governance.

School Committee members need to be well informed and to expand their knowledge of trends and issues affecting education and school governance. In addition, School Committee members need to develop and reinforce the skills required for effective policy-making, budget planning and communications.

School Committee members are encouraged to participate in district-sponsored training sessions and/or workshops and in School Committee or related conferences, seminars, workshops and conventions sponsored by the Maine School Boards Association, the Maine School Management Association, the National School Committees Association and other recognized leaders in education. School Committee members are also encouraged to be active in leadership opportunities that may be available within regional, state and national associations.

Adequate funds shall be budgeted annually to support School Committee member development, including participation at meetings, subscriptions to publications that address the concerns of School Committee members and memberships in School Committees associations.

Upon each School Committee's approval and within budgetary limitations, reimbursement for travel and necessary expenses will be provided to individual members for activities related to School Committee development. Each School Committee, on a case-by-case basis, will determine the number of School Committee members authorized to attend specific meetings, conferences, conventions or other events at the school unit's expense, as warranted by budgetary limitations. School Committee members may use

their own discretion regarding attendance at meetings, conferences, conventions or other events where reimbursement will not be provided by the school unit.

School Committee members are encouraged to report briefly to their School Committee and to the public to share knowledge gained and thoughts on implications for local school governance. School Committee members are also encouraged to share with its School Committee or the School Union 69 Committee and Superintendent materials of interest they have studies and/or collected.

Finally, School Committee members are encouraged to submit reports or articles to school and community publications, as appropriate, as part of the school unit's public relations or public information program.
